

Using A4 paper or card, fold carefully into thirds as shown.

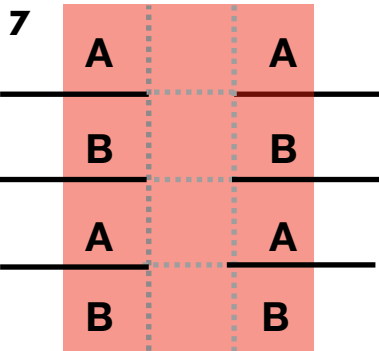

Next, open out then fold in half along the middle line like this.

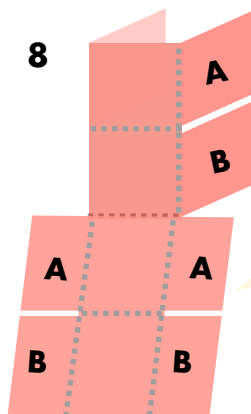

Fold the paper in half again so you have a thin strip.

Your paper should now have 12 squares folded into it.

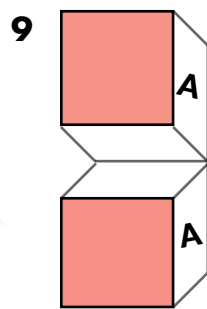

Now cut along the black lines as shown.

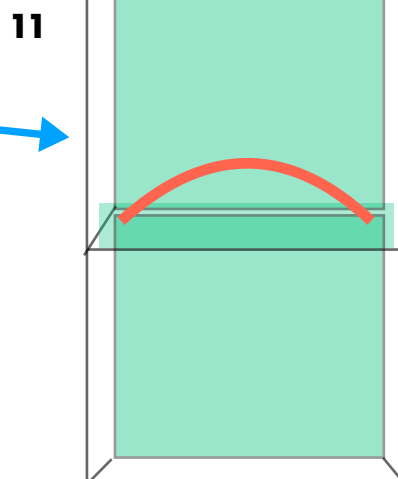

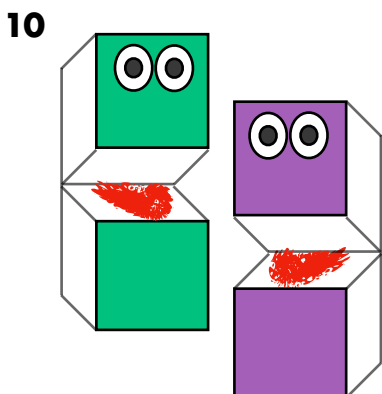

Fold back the tabs. Stick A tabs on top of B tabs to create a box front - The back will remain open to make room for your hand.

Your box puppet should take shape like this. Now you can add eyes and decorate.

To help keep your hand in place, stick or staple a strap to the back of the puppet as shown. Use scrap paper or card.

If you need extra help, check out our YouTube video on the Ministry of Stories page!
